

Vinyl Coated Steel (VCS) material options and specifications

Orange Vinyl		Specification	Standard	Available
		Coating Hardness	75 Shore A	Call
		Steel Gage	14, 12	16, 10, call
		Overall Thickness	.25"	.13" - .38"
Blue Foam		Specification	Standard	Available
		Coating Hardness	80 Shore "00"	Call
		Steel Gage	14, 12	10
		Overall Thickness	.50"	.38" - .75"
Twincoat Vinyl		Specification	Standard	Available
		Coating Hardness	Combination*	n/a
		Steel Gage	14, 12	10
		Overall Thickness	.625"	.50" - .75"
Soft Black Vinyl (high COF)		Specification	Stock	Available
		Coating Hardness	60 Shore A	n/a
		Steel Gage	12	Call
		Overall Thickness	.25"	Call
Red Vinyl Pantone 186 (Special Order)		Specification	Stock	Available
		Coating Hardness	60 Shore A	n/a
		Steel Gage	12	Call
		Overall Thickness	.25"	Call

* Overall hardness for Twincoat material is not measured. Each material used in the Twincoat process has its own measurable hardness value.
